

IGEN-Summer school in advanced cytometry Linköping 27-31 July 2015

Organizers: Emilia Wiechec, Marek Los

The course is our response to a growing demand for training in advanced cytometry.

While we emphasize practical (individual, or in small groups) interaction with the iCys equipment, under the supervision of a skilled operator, course participants will also become familiar with the theory of flow cytometry, laser-scanning cytometry, TIRF-microscopy and with examples of other equipment used for cell cytometry.

Bring your own samples for exercise/analysis is strongly encouraged.

Registration

The course is free of charge, however advanced reservation is required, as the number of participants is limited to 22. Please send your name, email, phone number and research group affiliation to emilia.wiechec@yahoo.com.

Travel fellowship

Limited number of travel fellowship will be available that would cover travel and/or accommodation (subjects to fund availability). Interested applicants should send:

- 2-page project description indicating the need to use advanced cell cytometry
- CV

Send the project description and CV to emilia.wiechec@yahoo.com

Successful applicants will be informed via e-mail by June 20th 2015
